Every year since 2015, Waste Management and The Thunderbirds have brought partners together to help Change the Course of Arizona's freshwater future. Join us.

How It Works

① **Sponsors Fund**
water restoration projects supporting local farmers, brewers, and habitats across Arizona

② **We Restore**
water quantity to rivers and groundwater that keep Arizona liveable and playable

③ **People are Inspired**
to conserve water through on course engagement and education

Gallons Restored

Arizona Project Portfolio

Change the Course scopes and supports innovative water projects that generate a combination of environmental and community benefits.

WMPO Change the Course (CtC) partners support water restoration projects across Arizona, including:
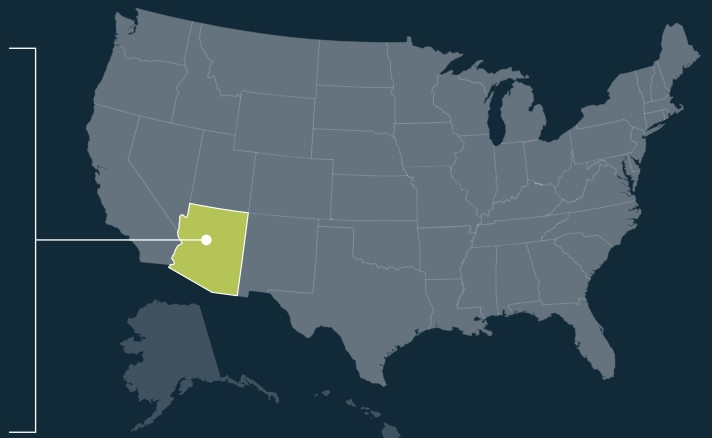

Habitat Restoration

Irrigation Modernization

Crop Switching

Floodplain Recharging

Join Us: WMPO CtC Partnership Elements

Recognition for contribution to water restoration projects in AZ

Acknowledgment for joining the partnership and making a collective impact at the on course display

Inclusion in social and traditional media outreach by WM around sustainability efforts of the WM Phoenix Open/Change the Course

Opportunity to engage tournament attendees at CtC Installation site with polling, contests, education, etc. (with tournament approval)

Opportunity to provide a product donation in the community to people or organizations in need in coordination with The Thunderbirds post-tournament

Access to general admission tournament tickets (limited quantity available)

Participation in educational water project field trip for employees and/or stakeholders. Trip will include elements such as:

- Tres Hermanas Ranch Visit
- Mason Lane Ditch and Oak Creek Visit
- Page Springs Cellars Tour and Dinner

The Commitment

Sponsorship

$11,000
